Section 3: Health & Welfare

The Breeder has taken every care with breeding, rearing and the welfare of the dog. The dog is believed to be in good health and is sold in good faith. The Breeder makes no warranty however, as to the health and disposition of the dog.

Every effort has been made to avoid any possible inherited conditions. Relevant, existing screening schemes have been used and copies of the relevant results are available.

The Purchaser(s) is strongly advised to take the dog to their Vet soon after purchase (i.e. within 72 hrs) for a general check and advice on inoculations and worming.

Section 4: Purchaser's Right to Return the dog in the case of a defect.

The purchaser(s) shall have 72 hrs to have the dog examined by a practicing Veterinary Surgeon and shall have the right during a period not exceeding 24hrs after such examination to return the dog because of a defect (other than described below [4a]) on production of a written report from the said Veterinary Surgeon, at which time the purchaser(s) will be refunded the full purchase price.

4a) The purchaser(s) hereby acknowledges that the breeder has disclosed the following faults or defects

.....

Should it become necessary, the purchaser(s) should be aware that the return of a dog can be very difficult, especially emotionally and, having drawn the attention of the purchaser(s) to this, the Breeder cannot be held responsible for any distress caused by the return of the dog. Where possible, an alternative dog will be offered in exchange.

Section 5: Potential of Dog

Although any description of the dog as being of working or trial quality is given in good faith, it is a condition of this sale that no warranty can be given as to the ultimate working/trial/breeding potential on maturity of the dog.

Section 6: Endorsements

This dog is sold subject to the following endorsement:

The Kennel Club Pedigree supplied with this puppy has been endorsed by the Breeder 'progeny not eligible for registration'. This is to help protect against the unacceptable use of the puppy for breeding – such as so called 'Puppy Farms'. The new owner of a Tagkai bitch pup who wants to breed from her in the future must return to tagkaigundogs and use one of our Stud dogs for her first litter at a cost of the stud fee, whatever it maybe at the time. This will ensure that the bitch's first litter will be hereditary clear of the relevant health tests. If the new owner doesn't return to tagkai on her first mating the registration endorsement that is in place with the kennel club will not be lifted. After the first litter is born any further litters the owner wishes to have may use any stud dog of their choice.

Section 7: Tail Docking and the Puppy Purchased

You have been given a certificate proving that the puppy you have purchased was docked legally by a Veterinary Surgeon. You need to keep this certificate safe, as you may be called upon by the authorities to prove that the puppy was docked legally, at any time in

the future. If you need to transfer ownership to another person at any time, please ensure that the certificate accompanies the sale or transfer,

At the time of docking, the Breeder believed that some, or all, of the litter would be used or sold, with the intention of being worked in accordance with the regulations connected to the Animal Welfare Act 2007.

Section 7: (cont)

The law appreciates that not every puppy docked will grow up with the necessary attributes and may never eventually work. It therefore follows that if you do not work your puppy, neither you as the owner, nor the Breeder, will be liable for prosecution, provided you can produce the certificate. Information and the regulations covering this aspect, are shown on the following website: <http://www.cdb.org/awa/index.htm>

Section 8: Re-homing of the dog

The Purchaser(s) agree that if at any stage in the dogs life, the Purchaser(s) need to re-home the dog, the Breeders will be the first to be informed and the Purchaser(s) will, if the Breeder requests return the dog to the breeder. This puppy must not be sold or transferred without the prior knowledge and written agreement of the Breeder – the Breeder will always be willing to help, if necessary with the re-homing of a dog that tagkaigundogs have Bred, for whatever reason, throughout the dog’s lifetime.
